Paperwork Reduction Act

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and, not withstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a valid OMB control number. The OMB control number for this collection is 3170-0008. The time required to complete this information collection is estimated to average between 7,700 hours and 77 hours per response depending on the size of the institution, per response. The obligation to respond to this collection of information is mandatory per the Home Mortgage Disclosure Act 12 U.S.C. 2801-2810 as implemented by CFPB'S Regulation C 12 CFR part 1003. Comments regarding this collection of information, including the estimated response time, suggestions for improving the usefulness of the information, or suggestions for reducing the burden to respond to this collection should be submitted to the Bureau at the Consumer Financial Protection Bureau (Attention: PRA Office), 1700 G Street NW, Washington, DC 20552, or by email to PRA@cfpb.gov. The other agencies collecting information under this regulation maintain OMB Control numbers for their collections as follows: Office of the Comptroller of the Currency (1557–0159), the Federal Deposit Insurance Corporation (3064–0046), the Federal Reserve System (7100–0247), the Department of Housing and Urban Development (HUD) (2502–0529), the National Credit Union Administration (3133–0166).

1. What's in the FIG?

This Filing Instructions Guide (FIG) is a compendium of resources to help you file HMDA data you collected in 2017. These resources are briefly described in this section and are further detailed throughout this document in individual sections.

Beginning with HMDA data collected in 2017 and submitted in 2018, responsibility to receive and process HMDA data will transfer from the Federal Reserve Board (FRB) to the Consumer Financial Protection Bureau (CFPB). The HMDA agencies have agreed that filing HMDA data collected in or after 2017 with the CFPB will be deemed submission to the appropriate Federal agency¹.

The change in which agency processes HMDA data does *not* coincide with the effective date for the new HMDA data reporting requirements provided in the Final Rule amending Regulation C published in the Federal Register on October 28, 2015. The Final Rule's new reporting requirements apply to data collected beginning on January 1, 2018. The Bureau has published a separate [Filing Instructions Guide](#) for HMDA data collected in 2018.

The FIG includes the following sections:

¹ The HMDA agencies refers to the member agencies of the Federal Financial Institutions Examination Council (FFIEC)—the CFPB, the Office of the Comptroller of the Currency (OCC), the Federal Deposit Insurance Corporation (FDIC), the Board of Governors of the Federal Reserve System (Board), and the National Credit Union Administration (NCUA)—and the Department of Housing and Urban Development (HUD).

1.1 Changes to the Submission Process for Data Collected in 2017

This section provides a summary of the changes made to the submission process for filing HMDA data collected in 2017 with the CFPB.

This section may be useful for employees in a variety of roles, for example, your institution's:

- Compliance Officer
- Staff who collect, prepare, and submit HMDA data
- HMDA technology support staff

1.2 2017 File Specifications

This section provides information including valid values, how to format your loan/application register, and how to file your HMDA data collected in 2017 with the CFPB.

This section may be useful for employees in a variety of roles, for example, your institution's:

- Staff who collect, prepare, and submit HMDA data
- HMDA technology support staff

1.3 2017 Edit Specifications

This section lists the edits, including syntactical, validity, quality, and macro quality that financial institutions must run on HMDA data before filing it with the CFPB.

This section may be useful for employees in a variety of roles, for example, your institution's:

- Staff who collect, prepare, and submit HMDA data

2. Changes to the Submission Process for Data Collected in 2017

2.1 Items that have changed:

The agency with which you file your HMDA data:

Financial institutions will file HMDA data collected in or after 2017 with the CFPB beginning January 1, 2018. The HMDA agencies have agreed that filing HMDA data collected in or after 2017 with the CFPB will be deemed submission to the appropriate Federal agency.

The agency to which you file *resubmissions* of your HMDA data:

A resubmission means that you have already filed your HMDA submission and received a confirmation receipt, but you are submitting again.

Beginning with data collected in 2017, filers will resubmit their HMDA data by filing with the CFPB.

The loan/application register file format for submitting your HMDA data:

Beginning with the data collected in 2017, financial institutions will submit data collected in a pipe delimited text file (.txt). Data fields will be separated by a pipe character, “|”, and will not be fixed length. This means that zeros do not need to be added for the sole purpose of making a data field a specific number of characters.² Additional information regarding the loan/application register file format can be found in the “Frequently Asked Questions” located at <http://www.consumerfinance.gov/hmda/for-filers>.

Text entries in alphanumeric fields do not need to use all uppercase letters with the exception of:

- “NA” used when the reporting requirement is not applicable; and
- Two letter state codes

A loan/application register formatting tool has been provided to help filers format certain data into a pipe delimited text file. This tool may be especially helpful for filers with small volumes of reported loans that do not use vendor or other software to prepare their HMDA data for submission. Information regarding the loan/application register formatting tool is located at <http://www.consumerfinance.gov/hmda/for-filers>.

The way you submit your HMDA data:

Beginning with the 2017 data, filers will submit their HMDA data using a web interface referred to as the HMDA Platform. Information regarding the HMDA Platform can be located at: <http://www.consumerfinance.gov/hmda/for-filers>.

We recommend that HMDA filers use a modern browser, such as the latest version of Google Chrome™ browser or Mozilla® Firefox®, Internet Explorer® 11, Microsoft Edge™, or other modern browsers.

² The one exception to this instruction is for rate spreads collected in 2017. Under current Appendix A (section I.G.1.d), rate spread is entered to two decimal places using a leading zero, for example, 03.29.

The following submission methods will *not* be permitted for data collected in or after 2017:

- PC Diskette and CD-ROM
- Submission via Web (from the Data Entry Software (DES))
- E-mail to HMDASUB@FRB.GOV
- Paper Submissions

The process by which you validate the edit report:

Financial institutions must address all edits *prior to* submitting their HMDA data collected in or after 2017. In contrast to the previous process for filing data with the FRB, all edits now must be addressed prior to filing HMDA data with the CFPB in order to complete the submission process.

The edit report will be web-based:

- Edit reports will *not* be e-mailed to filers in PDF format. Instead, the CFPB edit reports will be viewed and can be downloaded from the HMDA Platform.
- Responses to the edits will not be faxed or e-mailed to the CFPB. The HMDA Platform will guide filers through the process of addressing edits.

The Officer Certification process:

Beginning with the data collected in 2017, as part of the submission process, an authorized representative of your institution with knowledge of the data submitted shall certify to the accuracy and completeness of the data submitted. Filers will not fax or e-mail the signed certification.

The contact information for HMDA Help:

Technical questions about reporting HMDA data collected in or after 2017 should be directed to hmdahelp@cfpb.gov.

Technical questions about reporting HMDA data collected in or before 2016 should be directed to hmdahelp@frb.gov.

2.2 Items that have not changed:

The reported data fields:

The reported data fields for the 2017 data *have not changed*. Please refer to Regulation C currently in effect for the requirements.

3. 2017 File Specifications

3.1 Introduction

The following information describes the format used when filing HMDA data with the Consumer Financial Protection Bureau (CFPB).

3.2 Submission instructions

Filers will submit their HMDA data using a web interface. Information regarding the HMDA Platform can be located at: <http://www.consumerfinance.gov/hmda/for-filers>.

- We recommend that HMDA filers use a modern browser, such as the latest version of Google Chrome™ browser or Mozilla® Firefox®, Internet Explorer® 11, Microsoft Edge™, or other modern browsers.

The HMDA Platform will walk you through the loan/application register filing process.

Certification will also occur within the HMDA Platform. An authorized representative of your institution with knowledge of the data submitted shall certify to the accuracy and completeness of the data submitted.

3.3 Loan/Application Register format

Beginning with data collected in 2017, your HMDA data loan/application register will be submitted in a pipe (also referred to as vertical bar) delimited text file format. This means that:

- Each data field within each row will be separated with a pipe character, “|”.
- Zeros do not need to be added for the sole purpose of making a data field a specific number of characters ³.
- Filler data fields will no longer be used in the file.
- The loan/application register will be a text file with a .txt file format extension.

Text entries in alphanumeric fields do not need to use all uppercase letters with the exception of:

- “NA” used when the reporting requirement is not applicable; and
- Two letter state codes

As with previous submissions:

- The first row of the loan/application register will begin with the number one (1) to indicate that the data fields in row one contain data fields for the transmittal sheet, with information relating to your institution.
- All subsequent rows of the loan/application register will begin with the number two (2) to indicate that the data fields beginning in row two contain data fields for the loan/application register, with information relating to the reported loan or application.
- Each row will end with a carriage return.

³ The one exception to this instruction is for rate spreads collected in 2017. Under current Appendix A (section I.G.1.d), rate spread is entered to two decimal places using a leading zero, for example, 03.29. Please refer to Table 3.

4. 2017 Edit Specifications

4.1 Introduction

HMDA edits are rules to assist filers in checking the accuracy of HMDA data prior to submission. There are four types of edits:

- **Syntactical:** Edits that check whether the loan/application register is in the correct format and whether the data covers the correct filing year. A syntactical edit occurs, for example, if none of the rows in the loan/application register begin with the number two (2) to indicate that the following data fields contain information relating to the reported loan or application. The loan/application register cannot be submitted until the filer corrects all syntactical edit errors and reuploads the updated loan/application register to the HMDA Platform.
- **Validity:** Edits that check whether there are valid values in each data field. The data cannot be submitted until errors identified by the validity edits are corrected. A validity edit occurs, for example, if the contact person's telephone number does not follow the format "999-999-9999." The loan/application register cannot be submitted until the filer corrects all validity edit errors and reuploads the updated loan/application register to the HMDA Platform.
- **Quality:** Edits that check whether entries in the individual data fields or combinations of data fields conform to expected values. A quality edit occurs, for example, if the reported Tax Identification Number does not match the Tax Identification Number the institution reported on the previous year's loan/application register. The loan/application register cannot be submitted until the filer either confirms the accuracy of all values flagged by quality edits in the HMDA Platform, or corrects the flagged values and reuploads the updated loan/application register to the HMDA Platform.

- **Macro Quality:** Edits that check whether the submitted loan/application register as a whole conforms to expected values. A macro quality edit occurs, for example, if the reported percentage of multifamily loans exceeds 10% of the loan/application register entries. The loan/application register cannot be submitted until the filer either confirms the accuracy of all the values flagged by the macro quality edits in the HMDA Platform or corrects the flagged values and reuploads the updated loan/application register to the HMDA Platform.

4.2 2017 Revised edits
